

Year 4 DT Project

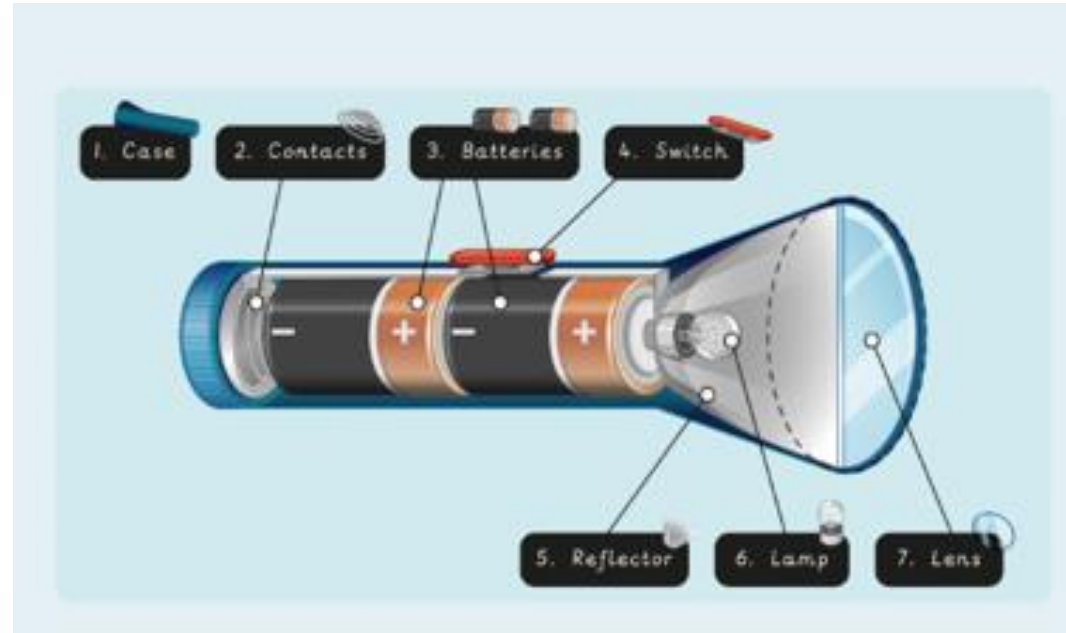

What, who, why?

Electrical products:

Features of torches:

Analysing torches:

Task 1 Product analysis

1. It's good that you don't have to hold it so your hands are free
 2. M.A.C.S.
 3. Make the torch able to rotate around your head.

what aspects do you like?
 - what of how it would look like
 - good that it's on your head and you don't have to hold it.
 - magnets are a good combination
 - material is sturdy

so they can see what is around them

Mehar and Daniel

Task 1 Product analysis

1. That as it has that thing to put on your wrist.
 2. I think the torch is designed for kids and old people.
 3. The controls

who might use this product?
 people that need to see at night

Mehar and Daniel

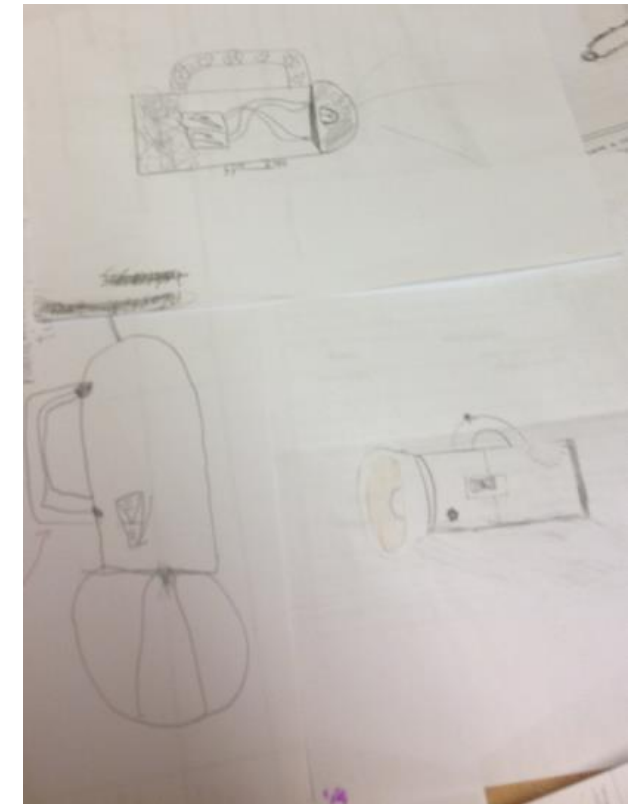

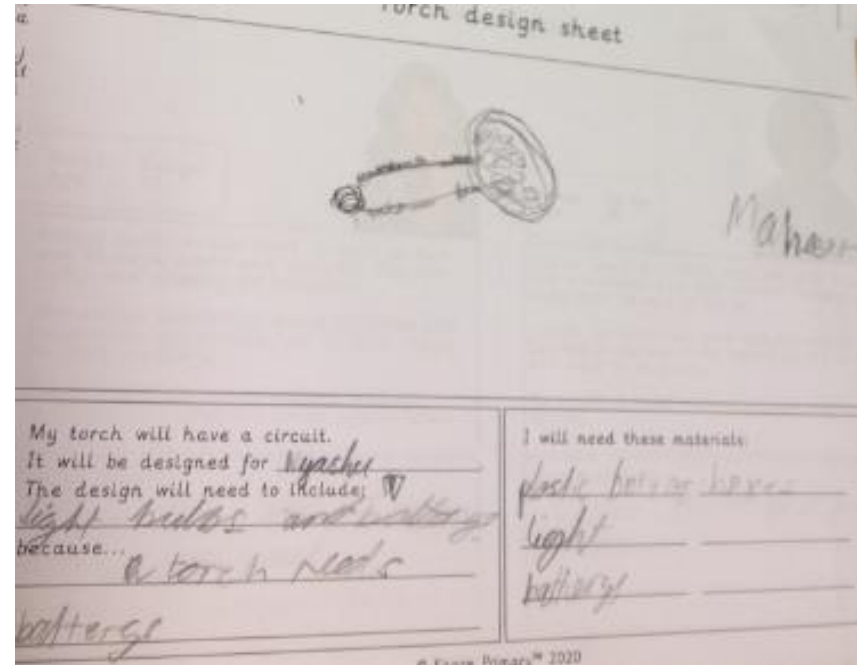

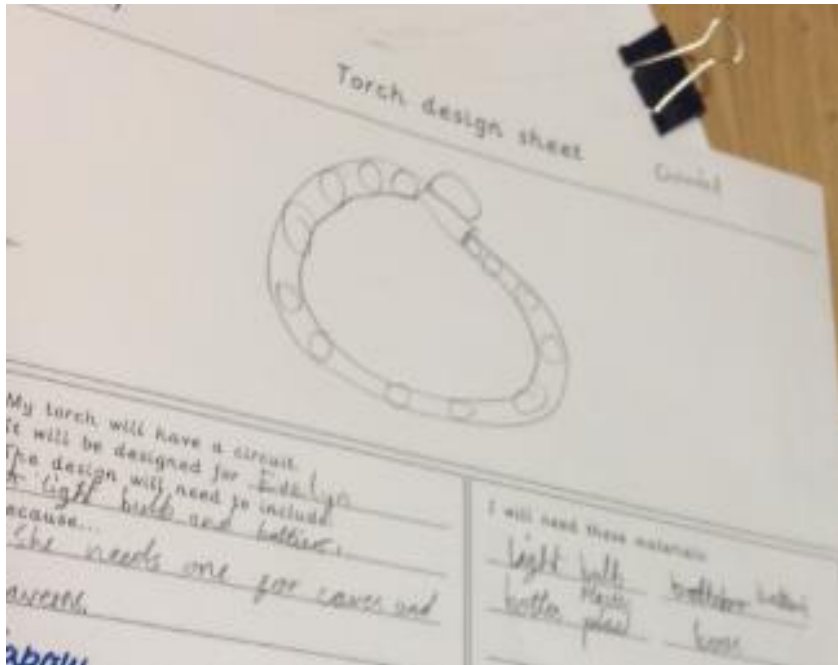

Task 2 Product analysis

1. It's a little bit short.
 2. The controls
 3. The shiny stuff inside and the handle

because it makes it lighter

because it makes it easier to hold.
